DISCLAIMERS:

Please note, any changes to the scope of works will require a new heritage survey request form. Changes to the scope of works in the field must be negotiated with YN PBC.

Scheduling restrictions limit the ability of the YN PBC to ensure that surveys can be moved or changed with changes in scope. Late amendments or revisions to the request may result in delays to survey timeframes and/or additional costs for which YN PBC is not liable.

All heritage survey request forms are subject to assessment by YN PBC. YN PBC may wish to negotiate changes to the proposed SoW to ensure that such work is in compliance with YN PBC policies and best practice cultural heritage management principles.

No data is to be released to the client without the corresponding recommendations contained within the Preliminary Advice/Report.
